

Discovered in 1974

Discovered by  
Albert Ghiorso and  
colleagues

Seaborgium is created by  
bombarding  
californium-249 with  
oxygen-18 nuclei

Seaborgium is named  
for Glenn T. Seaborg

Seaborgium

# Sg

## 106

The chemical properties of Seaborgium are partly characterized, but they compare well with the chemistry of the other group 6 elements.
